

Applewood Swim Team Social Media Update

Over the past two years the Applewood Swim Team has seen an increase in its use of both photos and videos at practices, swim meets, and other team events. These videos and pictures are used for the End of Season Highlight Video, but starting this year Applewood Swim Club will have a bigger presence on the internet. We will be posting pictures and videos on a number of different outlets including: Facebook, Instagram, Snapchat, YouTube and the Club's Website.

We believe that this is an amazing way to showcase both Applewood Swim Team and our swimmers!

If you decide you do not want your child to be included on these outlets online, please fill out the following op-out form and return to one of the coaches. Thank you.
